## FRANCE'S TASK.

### NEW GOVERNMENT'S POLICY.

#### CONVINCED OF SUCCESS.

Paris, July 27. The Government has demanded exceptional facilities for the passage of the financial proposals, including the postponement of all interpellations making this a question of confidence.

The Ministerial declaration read in the Chamber and the Senate this afternoon, expressed absolute conviction of the possibility of rapidly improving French finances and restoring exchange.

The result depended entirely on immediate and firm collaboration with the Government in the Chamber.

A Bill will be submitted forthwith to cover the deficit necessary to meet liabilities and in order to avoid for ever the risk of further inflation the Chamber will be asked to vote the balance of necessary revenue.

#### TAX ON WEALTH.

If the dire necessity of meeting obligations without delay compels an increase in indirect taxes, as the experts suggested, acquired wealth would be asked to make a reasonable contribution through direct taxation, part of which would form the annual contribution to the Sinking Fund for national defence bonds.

The statement adds: "The creditor nations, whom France is firmly determined to pay to the full extent of her powers, are, like ourselves, anxious to terminate the financial crisis. We do not profess to be able to solve in a few weeks, or even months, the whole economic and financial problem, which is practically universal. Financial sickness has been forced upon us. The important thing is to take the matter really, in hand. France has passed through sadder and more serious periods and has saved herself by union and energy. Victory to-day depends on the same conditions."—*Reuter*.

#### VOTES OF CONFIDENCE.

Paris, July 27. At the conclusion of the reading of the Ministerial declaration, the Chamber by 358 votes to 131 expressed confidence in the Government, agreeing to postpone interpellations until the financial proposals were passed. The Chamber also passed by 418 votes to 31 a resolution of confidence in the Cabinet, agreeing to speed up the passage of financial measures, including a time-limit on speeches.—*Reuter*.

#### CHAMBER ADJOURNS.

The Chamber decided that the Finance Committee must report on the Finance Bill within twenty-four hours. The Chamber then adjourned until Friday.—*Reuter*.

#### THE GOVERNMENT'S PLANS.

Paris, July 28. The Government financial plans are outlined in a statement, which says that the aims are the restoration of credit, the balancing of the Budget, the redemption of national debt, the repatriation of French capital invested abroad, the reduction of public expenditure and the immediate raising by new indirect taxation two-and-a-half milliards of francs which it is estimated will provide the necessary Treasury funds. The Government further proposes to readjust various duties to increase railway rates and taxes on mineral waters, motor cars, waterways, and business turnover and to revise Customs duties. Taxes on income from personal property will be increased by fifty per cent. Taxes on bearer securities will be reduced but others increased. Also estate duty and general income tax will be reduced.—*Reuter*.

## FLOODS ON EAST RIVER.

### SIMILAR EXPERIENCE TO HONGKONG.

#### AN INUNDATED CITY.

Belated news has reached the Colony of the disastrous effects caused by the electric storm in Tung Koon city, in the East River district, on the 19th instant. This, it will be recalled, was the date of the calamitous floods in Hongkong.

It is stated that even the oldest inhabitant of Tung Koon cannot recall a storm of such severity. The whole city was flooded, the water rising in some streets to a height of fully fifteen feet. The whole city was like a huge lake, with the tops of buildings appearing above the water. Many people took refuge on the roofs of their houses, whilst the only means of communication from one part of the city to the other was by using boats.

Over a hundred houses collapsed, and there were many casualties. The damage is said to have reached several lakhs of dollars, and telegrams have been despatched to Canton appealing for immediate relief. News from other parts of the East River shows that the whole district suffered badly as a result of the storm, and the plight of the people is indeed pitiable. Not having yet recovered from the effects of last year's war, and with conditions still unsettled by reason of the Northern campaign, further disaster has come with these floods, which have ruined much of the crops just as they were about to be harvested.

## OBSERVATORY MISHAP.

### MR. EVANS LOSES A FINGER.

Cricket enthusiasts and others will learn with sincere regret of an unfortunate accident which occurred at the Observatory during the typhoon last week, when Mr. B. D. Evans, the well-known Civil Service player, badly injured his finger whilst assisting to hoist the typhoon signals, necessitating his removal to hospital where his finger was amputated.

Mr. Evans, who is one of the Colony's best bowlers, was on duty at the Observatory and was assisting to hoist the No. 6 typhoon signal, when the mechanism of the winch became dislocated. Mr. Evans was investigating the cause, when his finger got jammed in the winch. His injury was of such a nature that he was subsequently taken to the Kowloon Hospital and the middle finger of his right hand was amputated at the first joint.

Mr. Evans was discharged from hospital yesterday.

## EUROPEANS ROBBED.

### THEFTS AT KOWLOON DOCKS.

Two thefts have occurred at Kowloon Docks within the last few days. Mr. Forsyth, engineer, 2 Havelock Terrace, Kowloon Docks, reports that sometime between July 23rd and the 27th some person stole from his house three pieces of jewellery, valued \$40; two-valve wireless set, value \$60; and a pocket book containing private papers and \$3 in money.

The other robbery was reported by Mr. Bliss, No. 1, Tantallon Terrace, Kowloon Docks, who states that between July 16 and yesterday, various articles, to the total value of \$60.50, were stolen from his daughter's bedroom. These include a silver mantle set, a silver tray, a silver basket, a fountain pen, and a purse containing \$2.50 in money. Mr. B. R. Dovey, Government Analyst reports that a platinum instrument has been stolen from a room in the Government Laboratory in Eastern Street. The value of the instrument is \$7.

## FOURTH PATIENCE TEST.

### ENGLAND TOTALS 305 FOR FIVE.

#### 30 BEHIND AFTER SOUND BUT DULL CRICKET.

#### ALL FIVE CAUGHT.

London, July 27. Play was resumed at Manchester to-day in cold weather, with an overcast sky. The wicket was wearing well. Ten thousand attended.

The Australians were all out by 11.20, for 335, having batted altogether 378 minutes.

#### England Go In.

Hobbs was applauded on his coming out with Sutcliffe at 11.38. There was a quiet start against Gregory and Grimmett, but on the advent of Ryder and Mailey, after 38 had been scored, batting was even quieter.

Fifty went up in an hour, then Sutcliffe chopped a leg-break and was caught by Oldfield off Mailey for 20.

Hobbs had then scored 37, and the first wicket fell with 58 registered. England had then been batting 75 minutes. Tyldesley partnered Hobbs.

At the luncheon interval, both were undaunted, Hobbs having reached 53 and Tyldesley 16. The total was 90 for one wicket.

#### Dull Cricket.

The crowd swelled to 17,000 after lunch, but the announcement later in the afternoon that stumps would be drawn at six o'clock destroyed what little interest remained.

The game was inclined to be dull even though it was palpable that no decision could be reached. Hobbs brought off many beautiful strokes, but his batting lacked spirit. Ernest Tyldesley was much more lively, and since he is a Lancashire man, his was the most popular success.

#### Hobbs Out.

The first 100 was not hoisted until play had been in progress two hours. The partnership added 35 more and then Hobbs attempted a drive, misjudged Grimmett's break and was caught by Ryder. Fielding at extra-cover. Hobbs had been at the wickets for two hours and forty minutes, and his 74 included seven 4's.

#### Brighter Cricket.

Woolley joined Tyldesley, who had then scored 39, and for some time afterwards the cricket was much brighter. The two hundred went up without further loss after 215 minutes, but 25 runs later Tyldesley gave Oldfield a chance which was promptly accepted. The pair had scored 90 runs, and Tyldesley's share had been 42, while Woolley had hit 45. Tyldesley was at the crease for 169 minutes and he had displayed magnificent cutting and driving, having hit seven fours.

At the tea interval, the score stood at 230 (for 3 wickets), Woolley having just reached his 50, not out, and Hendren being not out without having opened his tally.

#### Woolley Hits Six, Then Out.

Woolley proceeded to an effort to force the pace after tea, and he hit Mailey out of the ground for a six. Soon after he essayed a similar shot but misjudged Mailey's ball and was caught at extra-cover by Ryder. Woolley had scored 58 in 90 minutes, quite the brightest effort so far, and he had hit two sixes and five fours. Hendren, who had scored only three in a partnership of 18, was followed by G. T. S. Stevens, who hit out lustily and had scored 21 in quick time before making a bad stroke in asking a full toss from Mailey which was caught by Bardsley at short-leg.

#### Hendren Speeds Up.

Hendren had added five whilst Stevens was batting, but he opened his shoulders when joined by Kilner and secured the bulk of the 33 runs added without further loss before time was called.

## OUTRAGE ON PARIS MEMORIAL.

### NOTED FRANCO-AMERICAN STATUE DAMAGED.

#### RUSSIAN'S "PROTEST."

Paris, July 27. The statue in the Place Etats Unis, in memory of Americans fallen in the war, representing a doughboy holding out his hand to a poilu, was smashed with a hammer by a Russian named Jarovenko, who has been arrested.

Later. The Russian, Jarovenko, who damaged the Franco-American memorial, explained to the police that his action was a protest against the American refusal of credits to France and the workers' consequent sufferings from the economic crisis.

Jarovenko apparently only meant to mutilate the statue of an American soldier, which was modelled after the American soldier-poet, Alan Seeger, who fell in the war, but besides smashing the doughboy's left arm, he damaged the poilu's right arm, to which the doughboy was holding out his hand. It was at this point that he was arrested.

Jarovenko is believed to be mentally unbalanced.—*Reuter*.

## BUTLER TO A. D. C.

### INTERESTING CANTON APPOINTMENT.

A report from Chinese sources states that Mr. Wong Wai-lung, one-time butler to the late Dr. Sun Yat-sen, has been appointed Chief Aide-de-Camp of the Kuomintang Chairman.

Mr. Wong was at one time a laundryman in America and when the late Dr. Sun was an exile in that country Mr. Wong became very much interested in Dr. Sun's revolutionary schemes. He followed him in his struggle, attending to Dr. Sun personally.

When in Shanghai, Mr. Wong was Dr. Sun's butler; when in Canton, he was a personal body-guard; and when Dr. Sun died in Peking, more than a year ago, Mr. Wong volunteered to guard his coffin near the West Hill.

Mr. Wong returned to Canton a short time ago.

## GOVERNOR OF INDO-CHINA.

### PRESENT APPOINTMENT EXTENDED.

Paris, July 27. M. Varenne has confirmed his appointment as Governor-General of Indo-China for a further six years.—*Reuter*.

## BRITISH POLICY IN CHINA.

### A DECLARATION OF FRIENDSHIP.

#### DESIRE FOR BOTH GOOD AND GOODWILL.

#### LORD BALFOUR'S HOPE.

London, July 27. In the House of Lords, replying to Lord Parmoor with regard to China, Lord Balfour referred to the growth of national self-consciousness in China, and emphasised that so far as he was aware, no nation entertained the fantastic notion of a kind of military alliance among western nations for the purpose of coercing China. The British Government desired to interfere with the internal affairs of China as little as possible. China must work out her own salvation, though in doing so they appeared to be making many mistakes. Unfortunately, those mistakes reacted upon us, but the British Government most earnestly desired to co-operate with China and help China, where it legitimately could, to recognise that the British and Chinese, so far as commerce and economic affairs were concerned, had a common interest, and that as regards the organisation of their own country our hope was that there would be no difficulty in their managing their own internal affairs.

#### CUSTOMS DIFFICULTIES.

There were difficulties in connection with the Maritime Customs and other points connected with Treaty rights which certainly required modification and reform, and the British Government sympathised with that movement wherever it could be legitimately taken. It was quite impossible for the British Government in connection with all these commercial and judicial affairs simply to say that all the international structure built up in the last eighty years would be summarily removed, but the British Government most earnestly desired both the good and the goodwill of China.

#### FEDERAL SYSTEM.

Lord Balfour, referring to the relations between Canton and Peking, alluded to the strong current of opinion running in the direction of some kind of federal system between the provinces of China, and said there was no reason to believe that China was more likely to be broken up owing to her present unhappy condition than she had been in many very critical and difficult periods of her history.

Meanwhile, nothing could be more menacing in connection with the external relations of China than the present unhappy conditions, and all hoped that those conditions would be ameliorated, but he could not honestly say that they seemed to him to be in any process of rapid improvement.—*Reuter*.

## PRINCE IN CAMP.

### PERSONALLY LEADS WELSH GUARDS.

Rugby, July 27. The Prince of Wales is among the Welsh Guards now encamped in wooden hutments at Pibright Camp.

The Prince, who is Colonel-in-Chief of the Regiment, is taking part in ordinary field training. This morning, the Prince, riding his charger, placed himself at the head of the guards and led them over Chobham Ridge as a preliminary to extensive field operations.—*British Wireless*.

## CANTON AND FREE PRESS.

### ABSURD DEMANDS RESISTED.

#### LATEST REPORTS.

"The Canton Press is to-day engaged in a struggle to preserve the very existence and fundamental principles of journalism," says the Chinese Press Association of that city. Were the terms of the printers tolerated, says the Association, the editorial policy and news and advertising services would be wholly directed by the Kuomintang Workers' Conference, a body backed by extremists who have been working energetically for the last two or three years to control all publications for the purpose of propaganda.

The Kuomintang Workers' Conference, in addition to the demands for \$21 for printers and \$31 for compositors as the minimum wages, are trying to force the publishers to agree that no comments or articles unfavourable to the workers may be published and that no newspaper may suspend publication without the consent of the workers who, during such suspension, shall be paid two months' extra pay as a sacrifice for having to leave employment.

The terms, as announced, are ridiculed by the Canton journalists, and they have decided to remain inactive. In the meantime, the Workers' Conference is accusing the Yin Chiang Pao and other newspapers as being "counter-revolutionary."

## CANTON'S WAR

### HEAVY MONTHLY EXPENDITURE.

According to a Canton report, the estimated expenditure of the Northern campaign was placed at a figure of four million dollars per month, but since the commencement of the mobilisation, the actual expenditure far exceeds the estimate. At the present daily rate of disbursements, it will come to over six million dollars per month.

The latest report from General Tang Sung-che is that Yang Lou Tung has fallen to the Revolutionary Army. This is one of the largest tea-producing districts in Hupeh, and is about sixty miles from Wuchang. It is famous for tea plants, the leaves of which are compressed into bricks and are used by the Mongolians and peasants of Russia.

News reaching Canton says that Tang Yu-luk has been urged by Chan Kai-mo, Tapan of Hupeh to despatch reinforcements to Wuchang, as the Revolutionary Armies are invading Hupeh. The critical situation at Wuchang will, it is stated, have the effect of hastening the presence of Marehal Wu Pei-fu. Apparently, none of his generals are yet able to stem the tide of invasion of the Revolutionary Armies.

## AMERICA ABROAD.

### INJUNCTION BY PRESIDENT.

New York, July 27. President Coolidge, speaking at Paul Smiths, New York State, hoped that Americans abroad would make allowance for conditions in the countries they were visiting and not indulge in unwarranted criticisms or recriminations.

President Coolidge's position has already been made clear to executive officers and, although no direct reference has been made to anti-American demonstrations in Europe the President is represented as believing that the attitude of irresponsibility should not be taken too seriously. Americans abroad should realize that the people of some countries are in a serious situation and that difficulties should be viewed sympathetically.—*Reuter's American Service*.

## LIQUOR PARLEY.

### END OF LONDON CONFERENCE.

#### DEFINITE PROPOSALS.

London, July 27. The American Prohibition Conference in London has concluded. General Andrews, interviewed by Reuter, said he appreciated the British Government's spirit of fairness and sportsmanship. He referred to the happy issue of the Conference, at which remedial provisions against smugglers were concerted.

In the House of Commons, in reply to questions, Mr. Locker Lampson, said the delegates of the Prohibition Conference had made definitive suggestions of an administrative nature, which the two Governments were considering. There had been no question of the extension of the right to search vessels.—*Reuter*.

#### USING BRITISH PORTS.

Rugby, July 27. The discussions which have been taking place between representatives of the United States Government and of the British Government Departments concerned on the subject of the enforcement of the liquor prohibition laws, concluded at the Foreign Office to-day.

Mr. Locker Lampson, Secretary for Foreign Affairs, made a statement in the House of Commons this afternoon regarding them. He said that vessels engaged in liquor smuggling from this country frequently made use of the British flag and proceeded from ports and places within British jurisdiction. Questions had from time to time arisen between the Government of the United States and the British Government regarding this practice. It was decided that a meeting should take place in London between officials of the two Governments who should go fully into the matter. As the discussion was one between officials, no question of policy or politics arose.

#### FRANK DISCUSSIONS.

The first object of those present was to ascertain all the facts so that both sides could know fully and exactly what was taking place. It was felt that if this were done, with goodwill and in a sympathetic manner, it should be possible to devise means of overcoming the difficulties encountered in the respective countries in administering the law. The discussion was of a free and frank nature. Every fact or difficulty in the mind of either side was brought forward and discussed without reserve. Information in possession of each side supplemented that possessed by the other, and attention was concentrated upon infringements of the law which had been or were being committed by persons engaged in this traffic.

#### ILLEGAL REGISTRY.

In many cases, vessels had been on the British Register illegally and in certain cases, where they used ports or places in British Colonies, there appeared to be failure to comply with the definite provisions of the law relating to clearances and other matters. The object of the officials was to secure that these infractions of the law should be dealt with and should cease. There was no question of interfering with legitimate trade, which should have no difficulties in distinguishing itself from the illicit traffic.

With the object of securing observance of the law and reducing materially the causes of complaints, and misunderstandings, officials had made definite suggestions of an administrative nature, and these were being considered by the two Governments. For obvious reasons, it was not desirable that the text of the suggestions should be published until they had been fully considered. There had been no question at this meeting of any extension of the right of search.—*British Wireless*.

### OFFICE BOY MURDER.

#### CHINA COMMERCIAL COMPANY CASE CONCLUDED.

The case in which an office boy, formerly employed at the China Commercial Company of Connaught Road, is charged with murdering a fellow worker on June 28, was concluded at the Central Magistracy yesterday afternoon when the defendant, after the hearing of further evidence, was committed for trial at the Criminal Sessions.

Dr. Cheung Wing-tai, a medical practitioner of Hongkong, said that he was first consulted by the defendant in June last year. The accused complained of a "crawling sensation" under the skin and said that he thought he had contracted leprosy. Witness made an examination but found no signs of leprosy. He thought the defendant was suffering from neurasthenia.

Dr. Cheung prescribed a tonic consisting of sodium bromide and arsenic and gave the defendant an intravenous injection of neo salvarsan, which was repeated at a subsequent visit the beginning of this year.

There was no other organic trouble with the defendant who was informed of witness's diagnosis.

Mr. Hazlerigg, who prosecuted for the Crown, asked witness the mental condition of the defendant last June, and Dr. Cheung replied that prisoner did not appear to be normal and was mentally depressed. He spoke in a low voice and his thoughts seemed to be wandering.

Leprosy or Neurasthenia.

Some time in July last year the defendant again visited witness and said that his crawling sensations had ceased and he felt better. In March this year, however, he again complained of the sensations under the skin and reiterated his belief that he was suffering from leprosy. Witness still thought he was merely suffering from neurasthenia and that he was under the delusion he was suffering from leprosy.

In reply to Mr. Hazlerigg, witness said that it was a common belief among the Chinese that a crawling sensation under the skin was a symptom of leprosy, but it has never been described as such in any of the technical books in Western medicine.

Witness personally held the view that it was not a sign of leprosy. Such a sensation might sometimes be a sign of neurasthenia and other nerve diseases.

Mr. Hazlerigg: When you examined him do you consider that he was sane or insane?

Dr. Cheung: At the time I think he was insane.

Asked on what he based his reply, Dr. Cheung said that he formed his opinion on the general depression of the prisoner.

Mr. Hazlerigg: People do get insane in Hongkong without suffering from leprosy, don't they?

Dr. Cheung: Yes.

His Worship: Do you want me to put that down?

Mr. Hazlerigg, after consideration, remarked that the reply might be put on record for future reference.

Chief Detective Inspector Murphy gave a description of the disordered state the office was in when he visited the scene shortly after ten o'clock on the morning of the crime and said that he found the right index finger of a man under the desk. The deceased's body was lying on the floor covered with a quilt.

### TAXIS FOR SHANGHAI.

#### A FORTY CENT MINIMUM FARE.

Commenting on the transfer of a number of Hongkong Taxicabs to Shanghai, the China Press says:

There's good news for the taxicab users of Shanghai in the announcement that 100 new motor taxis will soon be here, and a 40 cent minimum fare established.

The new company is to be organized by Charles Hugo, formerly manager of the Star Theatre in Hongkong, now interested in the Hongkong Taxicab Company and known to many local persons as one of the theatrical pair of "Hugo Brothers," who had a magician's show on world tour for many years.

According to H. C. Wentworth, half-brother of Mr. Hugo, the latter is now in Hongkong arranging for the shipment of the first 50 taxis from that city to Shanghai. They will arrive within the next three weeks and the new company will begin its taxicab service. Later 50 additional cars will be shipped here.

The new line will be something novel in taxicab history in Shanghai, since each car will be equipped with a meter, and the rate will be fixed according to mileage, instead of a flat rate based on time, as the present taxis charge. This will bring a much cheaper rate in most instances, since the time of the ride will start when the taxicab user steps into the car, rather than when the car leaves the cab station. Likewise, when the car is not in motion, but is parked, the meter runs very slowly, thus giving a cheaper rate for time not actually spent in riding.

Permits to operate have been obtained from the authorities in both the International Settlement and the French Concession, and parking places have been granted on The Bund, Nanking Road, and other central points. Service stations will also be established at convenient places in Shanghai, and one central garage will care for cars not in operation, and undergoing repairs.

The cars are all of Citroen make, painted dark green. The chauffeurs will be trimly uniformed, and each machine will be vacuum-cleaned at the end of each day's run, Mr. Wentworth states. Each taxicab can hold four persons.

The cabs have been in Hongkong for some time, but the Hongkong Taxicab Company has found that there is not enough business recently in that city to warrant their retention. Originally 200 cabs were shipped to Hongkong, and but 100 will be kept there.

### BOOTLEGGING.

#### HEAD OF SYNDICATE CONVICTED.

New York, July 27. The "king of bootleggers," William Dwyer, head of a forty million dollar syndicate, and E. C. Cohron, were convicted by a Federal Court jury of conspiracy to violate the liquor and customs laws, and sentenced to two years' imprisonment in the penitentiary, and fines of ten thousand and five thousand dollars, respectively.—*Reuter's American Service.*

There were blood marks leading from the cubicle and it appeared that some heavy object had been dragged from the cubicle to the office. On the deceased's bed witness found a crowbar.

After further formal evidence the defendant was committed to take his trial at the next sitting of the Criminal Sessions.

### WORLD TONNAGE.

#### COMPARISONS WITH THE WAR YEAR.

London, July 27. The British Isles owned 19,400,000 of the 84,784,000 tons approximate total of world shipping at the end of June, recorded in Lloyd's register.

The total world net increase in a year was 143,000 compared with an increase of 613,000 the year before.

United States tonnage decreased nearly 500,000. British Isles decreased 41,000, compared with an increase of 335,000 tons the previous year.

The greatest increases in steam and motor vessels since June 1914 were:

United States 9,500,000, Japan 2,250,000, Italy 1,720,000, France 142,000, Holland 1,081,000, the British Dominions 1,057,000.

British Isles tonnage increased barely two per cent. over tonnage owned in 1914, whereas foreign tonnage increased nearly 64 per cent.

Germany shows the only decrease, namely 2,973,000.

Britain's 42 per cent. of the world's steam and motor tonnage in 1914 has now shrunk to under 31 per cent.—*Reuter.*

EMBARRASSING!

Ill-smelling breath is an offender against social harmony. Sweet pure breath is a necessity to every man and woman who desires respect and good-will. Usually all that is needed to correct offensive breath is an occasional dose of Pinkettes, the dainty little gentle-as-nature laxatives. They also banish constipation, bilious attacks, sick headaches, regulate the liver, clear the skin, relieve piles. All chemists sell Pinkettes, or post free, 60 cents the tin, from Dr. Williams' Medicine Co., 60 Kiangse Road, Shanghai.

## NEW ADVERTISEMENTS.

G. R.  
NOTICE.

### HONGKONG WATERWORKS.

IT IS HEREBY NOTIFIED that  
on and after Wednesday, the 28th  
instant, an endeavour will be made  
to give a supply of water through-  
out the Peak and High Level Dis-  
tricts between the hours of 10 a.m.  
and 12 noon and 6 p.m. and 8 p.m.  
As there is only a limited quan-  
tity of water available, the hours  
of supply will be curtailed without  
further notice, should this average  
quantity be overdrawn during the  
above stated periods.

Standpipes for general use will  
be available during the morning  
supply only, at the following  
places:—

"Redhill," Corner Plantation  
Road.  
Peak Club, Plunkett's Road.  
Mt. Kellett Road (Des Vaux  
Villas).  
Barker Road Tram Station.  
Junction of Barker and Stubbs  
Roads.

## FIAT—MODEL 503

Light, silent, and economical, the Model 503 with its metal-  
frame, combines elegance and comfort.

Its metallic frame, electrically welded, is firm and cannot be  
distorted, thus ensuring a perfectly silent car.

Insulating material is inserted between the body and the chassis,  
deadening every sound and eliminating creaking.

The metallic body members are very light and strong, rendering  
the whole car very light and sturdy.

Let us show you this fine car.

Engine: 4 cylinder 15/30 H.P.

Speeds: 4 forward, 1 reverse

General equipment: Speedometer, clock, 4 wheel brakes,  
Balloon tyres, sparewheel and tyre, Head-lights (self-dimming),  
metal parts nickelplated.

The very best you can get for your money.

## HERESY HUNT.

### S.O.S. THAT SHOCKED THE PRESBYTERY.

A modern heresy hunt, in which  
the hunter was the Rev. James  
Hunter, and the innocent victim  
Professor R. Haire, came before  
the General Assembly of the Pres-  
byterian Church in Belfast re-  
cently.

Mr. Hunter had charged Profes-  
sor Haire with instilling "modern-  
ist doctrines" into ministerial  
students at the Assembly's College.  
The matter had come before the  
Belfast Presbytery, who expressed  
regret that Mr. Hunter should  
have adopted such "irresponsible  
methods," and Mr. Hunter now ap-  
pealed to the Assembly.

Dr. Irwin drew attention to a  
circular that had been issued bear-  
ing Mr. Hunter's name.

The College "Seedling."  
At the top of the first page there  
were the large letters "S.O.S." Mid-  
way in the page were the words,  
"Faith or infidelity, which is it to  
be?" and at the bottom was "The  
Presbyterian College, a seedling of  
heresy."

The first paragraph, said Dr.  
Irwin, charged Professor Haire  
with violating his ordination vow  
and declared him to be "a living  
lie." Those tremendous accusa-  
tions were made without proof  
given in the circular that would  
bear a moment's investigation.

The Presbytery accepted Mr.  
Hunter's assurance that he had  
no personal animosity towards  
Professor Haire, but he must al-  
low him (Dr. Irwin) to suggest  
that in putting forth his plan Mr.  
Hunter was copying a somewhat  
doubtful model.

By a majority of 499 to 115 the  
Assembly dismissed Mr. Hunter's  
appeal.

## MOTORS IN SHANGHAI.

### GRAND TOTAL OF 5,264.

Last Thursday's Shanghai Muni-  
cipal Gazette contains some extra-  
ordinarily interesting tables show-  
ing the number and makes of  
motor vehicles—cars, trucks,  
trailers, vans and motor-cycles—  
registered in the International  
Settlement.

Altogether these amount to 5,264  
vehicles of all sorts, representing  
366 different makers. And to-  
these, of course, should be added  
hundreds of vehicles registered in  
the French Concession.

The table of motor cars (as dis-  
tinct from trucks and motor-  
cycles) give the following figures  
of cars most in use. Public and  
private cars are added together:—

Buick	543
Ford	406
Studebaker	301
Morris (Cowley and Oxford)	297
Overland	195
Dodge	184
Hupmobile	182
Chevrolet	176
Fiat	166
Citroen	140
Austin	113
Essex	89
Standard	84
Willys-Knight	65
Renault	52

There are also 12 Rolls-Royces,  
12 Daimlers, 35 Cadillacs, 9  
Paiges, 34 Packards, 4 Pierce-  
Arrows, 2 Panhard-Levassor and  
1 Itala. Curiously enough there  
does not appear to be a single  
Mots, which, 20 years ago, was  
one of the most popular and suc-  
cessful cars. But as stated, these  
records are for the International  
Settlement only.

## OBITUARY.

### SHANGHAI RESIDENT.

The death is announced of Mr.  
Henry Edward Samuel Pickering  
which took place on Thursday  
morning at 5 o'clock in the new  
Country Hospital, Shanghai, where  
he had been a patient only since  
Monday morning.

Mr. Pickering came out to China  
to join the firm of Messrs. Weeks  
& Co., Ltd., in 1909 at the age of  
22 years. Terminating his three  
year contract with Weeks & Co.  
during which time he also served  
the company in Hankow, it is un-  
derstood that he was associated  
with A. E. S. Thompson & Co.  
In 1922 he joined Franz & Co.,  
which he left in October 1924 to  
become identified with Covers,  
Ltd. At the time of his death he  
was a member of the firm of  
Thomas F. Guthrie & Co., 12 Nan-  
king Road, a firm which supplied  
some of the building materials  
to the hospital where he died.

## CHINA COAST OFFICERS.

### THE LATEST CHANGES.

Mr. W. Peplow, chief officer,  
Kiangsu, is on reserve. Mr. J. W.  
Lamont, from reserve, has gone chief  
officer, Kiangsu.

## PEAK WATER SUPPLY.

## ONE POKFULAM ENGINE NOW REPAIRED.

The following notification is issued by Mr. R. M. Henderson, Water Engineer:

It has now become possible to start the No. 1 Engine at Pokfulam Road Pumping Station and it is anticipated that slightly under half normal supply can be given in the Peak and High Level Districts.

It is proposed to give a two-hour supply morning and evening between the hours of 10 a.m. and 12 noon and 6 p.m. and 8 p.m.

If consumers will see that their supply is cut down to slightly less than half normal consumption, then an equally distributed supply will result, but should more than the average available quantity be drawn, then the hours of supply will be curtailed without notice and the higher houses will suffer.

Baths should be cut down to the smallest dimensions and W.C.s should not be flushed with water from the mains.

It is hoped to further augment this supply in about a month's time.

## Supplies.

Messrs. Calbeck Macgregor & Co., Ltd., advise that they are in a position to supply pure distilled water in pints, quarts or four gallon demijohns for drinking purposes. This water is distilled by the Aquarius Co. of Shanghai which in itself is a guarantee of its absolute purity. Water can be delivered to Peak residences.

## HIGHWAY ROBBERY FRUSTRATED.

## SCHOOL GIRL ASSAULTED BY CHINESE.

At the conclusion of an assault case heard at the Central Magistrate yesterday afternoon, the Magistrate, Mr. R. E. Lindsell recommended two chair coolies for a reward for their public spirit in chasing a man who had attempted to rob a young school girl in Robinson Road on July 16.

The defendant was charged with assaulting the complainant with intent to rob. The evidence showed that the young girl was returning to her house at 4.15 p.m. on July 16 and, when about to turn into a private pathway off Robinson Road, the defendant, who was standing near a flight of steps, seized her by the front.

She shouted for help and the defendant ran away, turning into Robinson Road, where the chase was taken up by two chair coolies who heard the girl's shouts for assistance. The defendant ran down Peel Street, Mosque Junction and then into Shelley Street. He was eventually stopped by a Police recruit.

The girl at the time of being accosted by the defendant was wearing a gold wrist watch and a pair of gold bangles.

The defendant denied the charge and stated that he was walking along the path when he saw a number of people running. He also ran and was accused of committing the act.

His Worship convicted the defendant and said that he regretted the law did not allow him to order a flogging, as that was what he deserved. Sentence of six months' hard labour was imposed.

His Worship further recommended that the two coolies be rewarded for their assistance, which was rarely shown by people of their class.

## SANITARY BOARD.

## THE TEACHING OF HYGIENE IN SCHOOLS.

A meeting of the Sanitary Board was held at East Office building yesterday, those present being, Mr. N. L. Smith, president, the Hon. Mr. H. T. Cressy, Dr. A. G. M. Severn, Dr. W. V. M. Koch, Dr. S. W. T'ao, Dr. S. C. Ho, Mr. Wong Kwong-tin, and Mr. R. A. D. Forrest, secretary.

The question of hygiene in schools had been raised at a previous meeting, and yesterday, a minute from the Director of Education was laid on the table. It stated that hygiene is taught in Government Anglo-Chinese schools from class 8 to class 4, in the lower classes in British schools and again for bigger girls under domestic hygiene.

Hygiene was also taught in nearly all vernacular schools, and there is a normal class for teachers at the Technical Institute.

The Board authorised that Sanitary Inspectors H. Hughes and E. N. Ponsford, be allowed to enter premises and inspect and seize unwholesome food in accordance with Section 83 of the Public Health and Buildings Ordinance.

The rest of the business was formal.

## CORRESPONDENCE.

## HORRIBLE!

[To the Editor of the Hongkong Telegraph.]

Sir—Some months ago I perused with interest a complaint pertinent to the drowsy way in which a dug-out in Mongkok was being filled.

Hey Presto! Here we have the eighth wonder of the world for the much complained-of P.W.D. has expeditiously carried out the work and the inebriate mosquitoes which have settled and found a colony in this dug-out have now been exterminated.

The gentleman who wrote the correspondence the last time and many others apparently do not relish mosquito bites to judge from their hujababoo in the press. As I am a connoisseur of mosquito life I can assure you that he is quite a harmless insect compared with some of our brokers and business sharks.

In short the mosquito although being addicted to a pernicious habit of stinging is quite a well behaved sort of creature. But alas! we must chase him out of home and hearth and he must quit too—Yours, etc.,

K. MING SING.

## A COUNTER-OFFENSIVE.

## HUPEH MOVE AGAINST THE SOUTH.

Peking, July 27.

It is stated that in the course of a few days the Hupeh forces and their allies will launch a general offensive by sea as well as by land against the southern invaders.

Sun Chuan-fang is said to have agreed to lend two of his largest gunboats to assist in the attack.—*Reuter*.

### The Telegraph

WEDNESDAY, JULY 28, 1926.

### THE MINING PROBLEM.

It will be thirteen weeks on Saturday since the coal strike first started at Home and, judging by the temper of the speeches delivered in the House of Commons on Monday, it will be a long while yet before there is a resumption of work. All of us individually and severally, inevitable lay the blame for this failure to find a settlement upon the party for whom, in normal times, we have the least regard, and it is interesting and illuminating to notice how each one of us can always succeed in justifying the views we hold. Mr. Stanley Baldwin, Mr. Lloyd George and Mr. Ramsay MacDonald are not alone in this. The Government is now posing as the helpless spectator who refuses to make anything other than a very limited contribution to the cause of settlement, plus the performance of certain acts which ought to help in the future, although not just yet. The miners are playing the role of bludgeoned and coerced workers, robbed of a time concession and also reduced in economic circumstances, whilst the owners, obviously out to fight to a finish for some reduction in costs, blame both the miners for obstinacy and the Government for dalliance. The truth, of course, lies somewhere in between all these mutual censures. We have previously said that we blame the Government for not being a little more patient before the stoppage and for its vacillation since. It once promised a partial subsidy, it has withdrawn that promise; it once firmly stated that there can be no "legislative" settlement of the dispute and that it must be an economic one, and yet it goes calmly ahead to legislate. There has been a lack of consistency that has resulted in the creation of hopes only to be followed by a blackness of despair and a reaffirmation of strike determination. The miners have been obstinate—just that and little else. They refused to accept the Samuel Commission Report though they would like the chance of accepting it wholly now, and this habit of refusing everything has persisted in face of reasoning and something like an offer of compromise. We do not like the idea of sacrificing the seven-hour day, even temporarily, but, when confronted with hard economics that require immediate application it sometimes happens that a man has to make a concession to his ideals and be content with the best practicalities possible. An eight-hour day with little reduction in wages would not have been an intolerable interregnum pending other readjustments, but the miners have fought and

fought. In Warwickshire it looks as though a fair number of men are disobeying the orders of the Federation, and Mr. A. J. Cook, the Miners' Secretary, must be a little dubious as to the solidarity of the opposition to the eight-hour day when he promises to take a ballot of the Federation's members, but he threatens to resign if the vote goes against his ideas.

Whatever prospect of a settlement there might exist lies in the direction of a "cave in" among the men. Mr. Baldwin's latest speech has been rejected with despair by the Labour Leader in the House of Commons, and there seems nothing likely to eventuate from the owners' different from what has been known all along. If the men do consent to an eight-hour day it ought to be definitely understood it is but a temporary measure, and it ought to be hedged about by strict conditions. There should be reorganization on the lines of the recommendations of the Samuel Commission and both the Government and the owners could do much in that connection to substantiate their claim that they are anxious to do everything possible to make lower pay or longer hours avoidable. At the moment, the miners feel that they are to be the sole contributors to the lower costs, and the earlier that feeling is removed the sooner shall we be approaching the stage when a really amicable settlement of the industry's problems can be effected.

### Canton Labour Problems.

We note with much satisfaction the movement which is on foot in Canton for the control of the labour movement. Whilst it has to be conceded that the Chinese worker has too often in the past been oppressed and not given a fair return for the services which he performs, it is equally the case that in recent years there has been ample evidence of tyranny by the Labour Unions, not only in Canton but here as well. No-one can reasonably object to trade unionism so long as it is operated on sensible lines, for the worker has every right to seek the protection of his interests by combination. When, however, as so often in recent times, Labour presumes to be a law unto itself, to indulge in all manner of illegalities and to resort to intimidation on wholesale lines, then we have a right to expect action for the curbing of such activities. In Canton, there has lately been a great deal of trouble, and not a little bloodshed, caused by conflicts between rival labour organizations, and it will be a distinct step forward if the unification proposals now made have the effect of putting a stop to these incidents. Other aspects of the problem were mentioned in our news columns yesterday, and we hope it will be possible to take action on the lines indicated. The discouragement of professional leadership in the Union movement is one of the steps suggested. That is an evil from which the trade union movement in most countries suffers, and, in the case of China, it has unhappily been shown time and again that the Union officials are often unscrupulous men who do not hesitate to rob the workers of their fees and who in other ways abuse the trust and confidence placed in them. Many of the present troubles of the labour movement in China are due to the ignorance of the workers, and in this connection we are glad to see mentioned a scheme aiming at their intellectual well-being. Education will in course of time play a big part in the progress of the people of China, in which connection we may hope to see most beneficial results attained amongst the working classes.

Sheffield police force boasts of a constable, Charles Milner, who has just joined up after taking degrees of Bachelor of Arts and Bachelor of Laws at Cambridge University. He appeared in his first case recently. With other officers he made a raid on a local hotel where betting was being carried on. Milner told the Court that the place had the atmosphere of "betting" when he entered. The licensee was fined £30, a book-maker £50, while fines totalling another £50 were imposed on frequenters.

### DAY BY DAY.

WERE HE EVER SO BENIGHTED, FORGETFUL OF HIS HIGH CALLING, THERE IS ALWAYS HOPE IN A MAN WHO ACTUALLY AND EARNESTLY WORKS.—*Carlyle.*

One Chinese case of typhoid fever was reported yesterday.

The weather forecast up till noon to-morrow is:—South winds, moderate; fair.

Mr. Henry Bagshaw Henley (86), of The Thatched House Club, for 37 years in the service of the P. and O. Steam Navigation Company, left estate valued at £37,582 (net, personality £37,484).

The Singapore Ex-Services Flying Association have received from Mr. Alan Cobham a reply to their invitation stating that he will be pleased to accept their invitation to dinner when he arrives in Singapore.

The Hongkong Radio Society intends to broadcast a special trial programme from the Morning Post Building on Friday between 8.30 and 10 p.m. Those having receiving sets are asked to listen in (wave-length 475 metres) and report the result of reception.

According to a report from Chinese sources, strike pickets in Canton on Monday seized two Indian watchmen employed by a foreign firm as they were walking on the Bund and took them to their headquarters presumably accusing them of infringing the picket regulations.

A revolver loaded in five chambers, and a dagger, which were discovered by a Chinese constable among a heap of stones at the junction of Boundary Street and Leitchikok Road, were ordered to be confiscated by Mr. J. H. B. Nihill at the Kowloon Magistracy this morning.

We understand, says the *Malay Mail*, that the Hon. Mr. W. H. Thorne, the well-known Penang lawyer, has been appointed a judge of the Straits Settlements and F.M.S. Mr. Thorne, who is now in England on holiday, is, we understand, reading for the Bar. He will probably be called this month.

Arrested yesterday on a charge of being on board the s.s. Van Gloon without permission, five Chinese were released on bail of \$50 each. None of the men appeared at the Marine Court this morning, when the case was down for hearing, and the bail was exonerated.

During a raid carried out by Revenue Officer Powell, and a party of Chinese Revenue Officers at No. 4 Tung On Sun Street, third floor, they seized seven pistols and five revolvers, all loaded with six or seven rounds of various makes and calibres. Four men and one woman were arrested.

The return showing the number of cases of notifiable diseases which occurred in the Colony during the week ended Saturday last shows that there was one imported case of smallpox, two cases of enteric fever, one of paratyphoid fever and one of cerebro spinal fever, all Chinese. There was one case of animal rabies. The Colony had a clean bill of health on Monday.

The following vessels are expected to be in wireless communication with Hongkong to-day:—Melania, Knowsley Hall, Taiyo Maru, Chenan, Perlak, Haining, Anhui, Romeo, Tai ping, Talamla, Sandviken, President Jackson, President Wilson, President Madison, Yuensang, Bandoeng Maru, Kwangchow, Kotsu Maru, Hector, Kwongsang, Zosma, Taishan, Sailing, Kalgan, Peru, Lungshan, Chukwa Maru, Sekko Maru, Tyn-darous and Katsu Maru.

At a meeting of ex-members of the flying services held at the Penang Cricket Club, Major H. D. Jensen was elected president, Mr. D. A. Parrott secretary with Messrs. A. H. Lancaster and A. C. Horsburgh as committee. It was agreed that the nominal subscription should be three dollars a year and also that a reunion dinner be held as soon as possible with the object of recruiting more members. The secretary was instructed to communicate with Singapore regarding affiliation and bringing the formation of the Association to the notice of the Air Ministry, with a view to forming if possible an R.A.F. volunteer reserve in Malaya.

### CORRESPONDENCE.

#### THE WATER RESTRICTIONS.

[To the Editor of the Hongkong Telegraph.]

Sir,—I shall be very much obliged if you would kindly insert this letter through the medium of your valuable paper.

In view of the fact, that all the reservoirs in this Colony are almost overflowing, I think it is a shame that the Water Authority should make the middle and poor classes suffer for want of water.

There is no doubt that quite a number of hydrants are turned on continually but each one at a very considerable distance. One always sees a long row of pails, buckets and kerosene tins, when there is a hydrant nearby; in fact, they occupy the whole length of the street. Fighting and quarrelling are quite common.

Although there is a supply of water to be turned on daily for two consecutive hours, that is not sufficient. There are about two or three families living in a flat among the middle class and from five to six in the poorer class. Each flat gets half an hour or so. A family at least consists of three or four persons; thus how many minutes can each family get?

I have seen people with my own eyes walking up to Robinson Road and up the hills just for a bucket of water and use it for drinkable purposes. Everyone knows it is not safe, and yet what could one do? A person may live without any money, but it is impossible to get on without water.

Do you expect anyone, especially the coolie class, to go and wait three or four hours for a bucket of water to clean up their homes, or to have a daily bath after the toil of the day? To purchase water is absolutely beyond their reach.

It is high time that the Government should do something to it, in order to prevent the outbreak of some kind of disease, thus endangering the lives of the public. May I suggest that the Water Authority turn on the supply for three or four hours instead of two, since tons and tons of water are wasted daily? After all, it is only for the benefit of the public.

Thanking you for the insertion of this letter.—Yours, etc.,

HONGKONG, July 27th, 1926.

Passengers departing yesterday by s.s. President Madison included Mr. M. Manuk, Miss Manuk, and Mr. R. R. Roxburgh.

### RUGBY WIRELESS.

#### OVERCOMING ITS LIMITATIONS.

Rugby, July 27.

The Postmaster-General was asked in the House of Commons what were the geographical limitations to the ability of the Rugby Wireless Station to reach ships at sea.

The Postmaster-General stated that the most difficult localities for reception appeared to be in the eastern part of the Pacific Ocean. The power at Rugby had been increased recently to facilitate reception in such localities. Experience showed that the messages were regularly received by ships in all parts of the world.

Replying to a further question regarding telephonic transmission from the Rugby Station, the Postmaster-General said there were still certain technical difficulties to be overcome before a Trans-Atlantic service could be opened. Experiments with this service were still proceeding. Until definite results were obtained, it was not possible to make any useful forecast as to the extension of wireless telephony to other countries.—*British Wireless.*

### BEAUTY PARLOUR.

#### NEW HONGKONG VENTURE.

Ladies will doubtless be interested in the announcement that the "Beauty Parlor Parisienne," which has been organised in connection with Madame Flint's establishment, will be opened on August 1st, in the present premises in Pedder Street.

Under the supervision of Madame A. Landau, who has had much experience in Paris, the new salon will be staffed by European assistants thoroughly qualified in the latest methods of facial treatment, hair-dressing etc. Shingling will be one of the specialties.

Madame Landau previously visited the East when she opened the Beauty Parlor at the Astor House Hotel, Shanghai, a venture which met with much success. Since relinquishing charge there, she has toured the Continent studying various forms of skin and hair treatment and is well acquainted in hand and electric massage, violet ray application, etc.

Deaths in the Punjab during the recent plague between March 1 and May 15 numbered 54,000.

## The Very Idea!

There is, in Manhattan, an organization of "poor little rich men," whose hearts have "gone down to the sea in ships," but who have been divorced from their earnings by the exigencies of a business. But they have found some compensation in carrying on a sea game such as only rich men could afford to play. Ship lovers all, they are tied to the land. And so they build models that cost as much, and sometimes more, than would a sailable yacht. Some of their ship models have cost up to \$30,000.

If Adam brushed his hair, he was the original party of the first part.

"Gentleman requires companion-secretary for a few hours daily; a bright conversationalist; knowledge of bridge; age about 40; variety man preferred; one habitually mingling with people of high social position; secretarial duties extremely light; generous terms.—Write Box — The Times, E.C.4."

What the advertiser is after seems to be what "Ferdinand Count Fathom" calls the genteel comedy of the polite world.

The rooster has a heap of nerve. Just think, and you won't doubt it. The hen will lay an egg and then the rooster crows about it.

The ghost of Archbishop Laud, who was executed in 1645, has been seen at plane motors, Conrail's novels, Windsor, according to two people, who claim to have seen the apparition.

Suppose that somebody handed you paper and pencil with a sign-on-the-dotted-line expression, and told you to list the things you liked best. That's what a reporter did to Arthur Tuckerman, novelist. He wrote—English hedgerows in May, coming into strange harbours at dawn, palm trees in moonlight, blondes in black crepe de chine, trout-fishing, the sound of aeroplanes, the sound of Conrail's novels, Windsor, according to two people, who claim to have seen the apparition.

Had is the past tense of money. The annual discovery recurs, that home as a vacation resort is not necessarily a distressing possibility.

## CANTON STUDENTS.

## THE LATEST TROUBLES.

In addition to labour troubles, Canton is now faced with student difficulties.

The students of Kwong Wah Medical College, a private incorporated institution, supported by Chinese practitioners of Western medicine, are still clamouring for the dismissal of the Dean, notwithstanding the standing of the Board of Directors that the power of appointing or removing members of the teaching staff belongs to the management.

The students have declared a boycott of the institution and are preventing new students from seeking admission. The attempt of the College to re-open, without the deserted students, may be impossible, as pickets are posted around the premises to oppose any person trying to enter the institution.

The Pui-ching Baptist Academy in Tungshan, Canton, will have to continue its senior middle school on account of the demands of the students. The Academy lately found that the number of students in attendance and the financial resources it has in its possession do not warrant the continuation of its senior middle school classes and, therefore, decided to suspend them. The Kuomintang authorities, however, appear to hold that "once a school always a school," and the Pui-ching Academy must operate all its classes, reasons which exist in its classes, despite reasons which may exist for discontinuation.

## EMPIRE SETTLEMENT.

## THE PROBLEM OF AUSTRALIA.

Rugby, July 27.

Mr. Amery, Secretary for the Dominions, stated in the House of Commons that during the year ended May 31st last, 8,536 men, 6,826 women, and 11,036 children, making a total of 26,398 persons were assisted under the Empire Settlement Act to proceed to Australia. The numbers of emigrants to New Zealand assisted during the same period, were 2,587 men, 2,445 women, and 3,760 children; or a total of 8,797 persons.

Co-incidentally, in a speech at the annual meeting of the Empire Parliamentary Association, the Prime Minister made a declaration that "by far the most important thing for Australia, for the peace of the world and our own race is that there should grow up there a community larger than at present exists—a community of pure-bred stock from the British Isles." Mr. Baldwin added that he thought the forthcoming visit of the Delegation of Empire Parliamentary Association to Australia would do an immense amount of good. It had always seemed to him there was a real difficulty in understanding problems that had to be faced, even by men of our own blood, living on the other side of the world. It was only by close personal contact that we could really understand and sympathise.—*British Wireless.*

## RELIGION IN MEXICO.

## CATHOLICS ACTIVE AND ANXIOUS.

Mexico City, July 27.

Catholic churches throughout the country are most active in view of the fact that the usual forms of worship will cease on Sunday when the Government's religious regulations become effective. Masses are being said half-hourly by crowded congregations and thousands of children are being baptised. The Archbishop is most busy instructing the priests from the country districts with regard to their conduct during the crisis. It is believed that the majority of them will be taken into the families of catholic laymen and that they will don mufti and pursue lay occupations until permitted to resume religious duties.

Government officials defend the action of President Calles in enforcing the Constitution and declare that catholic reactionaries have been trying to participate in and control politics in Mexico ever since Mexico's independence from Spain.—*Reuter's American Service.*

## THE HOTEL INCIDENT.

## PROFESSOR TO PAY COMPENSATION.

The case in which Professor Langsner was charged with assaulting the head boy at the Hongkong Hotel, was concluded before Mr. R. E. Lindell, at the Central Magistrate's court this morning.

Mr. Lindell remarked that it was quite clear that there must have been some misunderstanding, as the defendant and complainant did not understand each other's language. He thought the Professor actually did push or hit the boy so that he fell. He would record a conviction on the assault charge; the Professor would be bound over in a bond of \$50 for a period of six months to keep the peace, and would have to pay \$10 compensation to the hotel boy.

Evidence was given by M. Regad, Professor Langsner's secretary, who stated that they went to a table near a verandah when the boy had told them they could not have a certain table. The boy stood behind the Professor's chair, and, although told to go away several times, he refused to do so. The Professor, rising slightly from his chair, pushed the boy and the latter fell.

In reply to Mr. T. A. Wadeson, who was defending, witness said he saw the Professor throw an order book on the floor.

Professor Langsner said he had another witness, who had not come to court.

Mr. Wadeson submitted that on account of the Professor's ungovernable temper he had knocked the boy down, and, from his point of view, he had been so badly treated that the remainder of the servants in the Hotel refused to wait on the defendant, and it was only with considerable difficulty that they were persuaded to do so. He asked for a fine, and compensation.

## ATTACKED WITH CHOPPER.

## ALLEGED ASSAILANT COMMITS SUICIDE.

A double tragedy is reported from Kowloon, where, apparently, after seriously wounding a Chinese with a chopper, his assailant committed suicide by jumping on to the roof from a verandah.

According to a report made to the police, a Chinese named Lau Mak-po, forty-five years of age, employed at the Kowloon Godowns, has been sent to the Kowloon Hospital suffering from head injuries of a very serious nature, which, it is alleged, were inflicted by a man named Lau Kang, with a chopper at Haiphong Road, Kowloon, at 11 p.m. yesterday.

Lau Kang then apparently committed suicide by throwing himself from the second floor verandah of No. 9, Haiphong Road.

## CONSTABLE CHARGED.

## HAD TO TELL LIES.

Alleged to have stolen a watch from a prisoner arrested for breach of the Opium Ordinance, a Shantung constable attached to the Mongkok Police Station was charged before Mr. J. H. B. Nicholl, at the Kowloon Magistrate's court this morning, with larceny, and alternatively with misbehaving himself as a police constable by telling lies.

In answer to the first charge, the defendant pleaded that he took the watch from the arrested man whilst searching him, but he had no intention of stealing it. Regarding the second count, the defendant said that he was obliged to tell lies to the Inspector, as he had lost the watch.

His Worship entered a plea of not guilty on the first count and guilty on the second.

The case was provisionally fixed for to-morrow for hearing.

## ALCOHOL POISONING.

## A MURDER CHARGE ENTERED.

Buffalo, July 27.

The District Attorney has directed a murder charge to be entered against the person alleged to have dealt in the liquor which resulted in the wood alcohol poisoning fatalities.

Other sources of the deadly traffic are being followed up.—*Reuter's American Service.*

## PRATAS WIRELESS.

## NEW STATION OPENED.

The inauguration of the wireless station on the Pratas Shoals took place on Monday, following the arrival there of the Chinese cruiser Hoi Yung, with an official party, which, besides the Commander of the First Chinese Squadron, Rear-Admiral C. L. Chen, and the Director of the Chinese Coastguard Administration Rear-Admiral C. C. Hsu, also included four representatives of the Hongkong Chinese General Chamber of Commerce, and the Commissioner of the Maritime Customs for Kowloon District, Mr. N. R. M. Shaw. Pressure of work, brought on chiefly by the weather conditions of the previous week, prevented many Hongkong officials from attending.

Squally conditions, attended by rains, for some time obscured the view of the shoals from the cruiser, and they had to be approached with caution, after many hours of careful reconnoitring. However, a landing was effected at last, and the ceremony of throwing Pratas wireless station open was performed on the same day, with much eclat and to the accompaniment of appropriate speeches.

The party returned to Hongkong yesterday, the Hoi Yung leaving the Shoals at nine o'clock on Monday night and arriving here at 2.30 yesterday afternoon.

Rear-Admiral C. C. Hau has since returned to Shanghai. The cruiser is still in port.

## IODINE BELOW STRENGTH.

## LOCAL CHEMISTS FINED.

As the result of some tincture of iodine from the China Dispensary being found to be below the regulation strength, the Chinese manager was charged before Mr. R. E. Lindell, at the Central Police Court, this morning.

Mr. E. R. Dovey, Government Analyst, said there should have been 1025 grammes of iodine in one millilitre, which was 1/28th part of an ounce. The iodine which was analysed was found to contain 10203 grammes of iodine, which was a deficiency of nearly 20%. In England, a margin of 10% error was allowed, but the deficiency would not greatly affect the efficacy of the iodine.

Examined by Mr. E. S. C. Brooks, who appeared for the defence, witness said he had examined many samples, and in one other case there was a deficiency of five or six per cent. Speaking from memory, he believed there had been a previous prosecution against the firm.

The defendant, giving evidence, said the tincture of iodine came from England in large bottles, after which it was put into smaller ones. It had not been tampered with, and, as far as he knew, was the same as when it was sent from England.

A fine of \$50 was imposed.

## MINING BILL PASSED.

## LABOUR MOTION DEFEATED.

London, July 27.

The House of Commons by 312 votes to 125 agreed to the third reading of the Mining Industry Reorganisation Bill, a Labourite motion for rejection being defeated.—*Reuter.*

## THE MODERN LIGHT IS ELECTRIC

The healthiest,  
most convenient  
LIGHT  
"ELECTRIC"

ELECTRICITY has created the modern Art  
of Illumination. It offers you more light  
without glare as well as increasing your  
convenience and safety. ELECTRICITY,  
used with fittings and shades of modern  
design offers the greatest light-value obtain-  
able, and is adaptable to any purpose of  
use or beauty.

Use Electric Light in your porch, cellar,  
cupboards and on dark stairs, for your  
safety and comfort. It can be switched on or  
off in a moment from anywhere convenient.

The China Light & Power Co. (1918), Ltd.

SHOWROOM: 62, Nathan Road, Kowloon.

Telephone No. K. 677.

## BERLIN POLICE.

### SOME BITTER COMPLAINTS.

At long last the Berlin Police-  
man has discovered that "a police-  
man's lot is not a happy one," and  
he is protesting in consequence.

It is certainly an extraordinary  
thing that no fewer than 4,000 of  
Berlin's policemen should meet in  
order to condemn the way in which  
they are being treated. It was  
noticeable that they criticised their  
officers very strongly.

"We are being drilled much  
more than we were before the  
war," a speaker said, "and our  
officers 'slang' us more rudely.  
We are called 'idiots,' 'sheepheads,'  
'scoundrels,' and 'asses,' and if we  
complain it is we who are punished."

### "Super-Militarism."

The speaker said that the police  
force of the country was really  
"a super-militarism."

Even a policeman who had done  
his military service before the war,  
who had been through the war, and  
was now between 40 and 45 years  
of age, had to drill in the barrack-  
yards like a recruit, and with young  
men of 20 or so.

As an example of the "super-  
militarism" prevailing, the speaker  
gave an example of the officially-  
approved method of arresting a  
man.

The man is seized and put up  
against a wall; he is then search-  
ed. That having been done, the  
policeman retires three steps,  
draws his revolver, points it at  
the man. Then the order is  
given: "Right turn, march!"

And off the man marches to the  
police station, the policeman fol-  
lowing and covering the man with  
the revolver!

A resolution was passed warning  
the authorities that they were  
about to place the last straw on  
the policeman's back, and calling  
for the abolition of the excessive  
military drill to which the police-  
men are subjected.

### Arms.

There is little doubt that the  
authorities regard the police force  
as part of the military forces of  
the country. The policemen are  
certainly armed to an excessive  
extent. It is quite a common  
sight to see policemen going about  
with

A rifle.

A revolver.

A bayonet and

An indiarubber club.

Policemen on duty generally  
have all these weapons except the  
first named.

It is certainly a danger that  
young men, badly educated and  
improperly trained, as speakers at  
the meeting said they were, should  
be on duty armed in such a way,  
and it is this that has led to  
countless "regrettable incidents,"  
regarding which the public can  
get no satisfaction, and against  
which there is no protection.

### WISHED TO RESIGN.

### MIDDY REFUSES TO TAKE OATH.

Annapolis, Md., June 3.—Mid-  
shipman E. B. Zinkle of Garden  
City, Kas., to-day refused to take  
the oath of "induction into the  
United States Navy upon Graduation  
with his class from the naval  
academy here. Secretary of the  
Navy Wilbur, who had delivered  
an address to the graduating mid-  
shipmen, and to whom the case  
was referred, ordered the young  
man assigned to a station aboard  
the battleship New York, which  
leaves on a coastal cruise to-  
morrow.

The case was the first of its  
kind ever reported at the academy.  
Admiral Louis M. Nulton, com-  
mander of the midshipmen, said  
to-night. After the class of 446  
had received diplomas, they were  
marched to the commandant's  
office to be sworn into the naval  
service as ensigns and lieutenants.  
Midshipman Zinkle, then an-  
nounced that he would not take  
the oath because he did not wish  
to continue in the service and felt  
that he "wished to do something  
else."

A ruling of the Naval Depart-  
ment, now in force, requires that  
a midshipman serve two years in  
the service after graduation before  
his resignation may be considered.  
The young man has been attempt-  
ing to resign for several months.  
Admiral Nulton said, although his  
ranking in conduct and as a stud-  
ent has been high.

## COUNTY CRICKET.

## LANCASHIRE STILL WINNING.

## R. TYLDESLEY'S FEAT.

London, July 27.  
Playing at Bournemouth, Hampshire defeated Gloucester by 75 runs. The scores were:—

Hampshire, 152 and 204 for six wickets (declared).  
Gloucester, 107 and 174.

The feature of the match was the performance of Newman. He was top scorer in Hampshire's first innings, making 66, and he took 14 of Gloucester's wickets—eight for 61 runs in the first innings, and six wickets for 87 runs in the second. Mead scored 50 in Hampshire's second knock.

## Match Drawn.

The match between Essex and Middlesex at Leyton, was drawn on account of rain. The scores were:—

Essex, 325.  
Middlesex, 82 for one wicket.

For Essex, Morris made 76 and Douglas made 61. Middlesex had only lost one wicket when rain put a stop to any further play.

## Lancashire's Innings Win.

Playing away at Chesterfield, Lancashire beat Derbyshire by an innings and 150 runs. The scores were:—

Lancashire, 325.  
Derby, 129 and 46.

There were two centuries made in Lancashire's innings, Hallows making 100 and Watson 109. Taylor also added a useful 54.

Derbyshire failed to stand up to the bowling of R. Tyldesley, who took five wickets for 17 runs in the first innings and five wickets for 18 runs in the second, thus getting 10 wickets for 35 runs. Macdonald also "came off" in the second innings, taking four wickets for 13 runs.

## Sussex Gain Points.

Playing at home at Brighton, Sussex gained a first innings win over Northamptonshire. The scores were:—

Sussex 221 and 121.  
Northants, 205 and 34 for one wicket.

Cook was the highest scorer for Sussex, making 64. In the home side's second innings, the batsmen were not comfortable against the bowling of Jupp, who took six wickets for 48 runs.

The highest score of the match was put up by Barnall of Northants, who made 80, whereas the best Sussex bowler was Cox, who took five wickets for 32 runs.

## A Narrow Advantage.

By the bare margin of two runs, Surrey gained a first innings win over Kent in the match at the Oval. The scores were:—

Kent, 303.  
Surrey, 305.

For Kent, Ashdown made 150 (not out), the other batsmen not faring any too well against the bowling of Shepherd, who took five wickets for 84 runs.

Surrey just managed to get enough runs to win, thanks mainly to Jardine 85 and Jeneocke 61. After Surrey had been dismissed there was not time enough left for Kent to go in again.

## Drawn Match.

Playing at Worcester, Worcestershire drew with Warwickshire. The scores were:—

Worcester, 309 for nine wickets (declared).  
Warwick, 168 for four wickets.

Fox made 122 (not out) for Worcester, and Parsons was top scorer for the visitors with 55 (not out). Rain interfered with play.

## THE TEST MATCHES.

## THE ONLOOKER'S POINT OF VIEW.

The Fourth Test ended at Manchester yesterday with Australia all out, and England, 30 behind, having failed to complete a single innings, like the three preceding games was unsatisfactory from every angle of view and added one more point to the argument of those who declare the futility of endeavouring to play a match of international and Empire importance in three days.

The first four Tests have been a sheer waste of time, and the one just ended in a "draw" the most hopeless of the series. The world's premier batsmen occupied the wickets for an aggregate of 715 minutes, and with fifteen wickets down succeeded in putting together 410 runs.

The Australians were not out for speed. They can scarcely be blamed if they make their runs unhurriedly. They scored 335 and took 378 minutes over it. But the England side was expected to do better than that, yet in 335 minutes at the wickets could muster only 305. The bowling and fielding of both sides was extraordinarily keen but there appears to be little excuse for the funeral march on a plumb wicket.

Hendren was a typical example. In with Woolley while 18 runs were made, he scored 3; with Stevens while 29 runs were added, he claimed 5.

Hobbs batted for 160 minutes for 74, Tyldesley contributed 81 in exactly the same time, Sutcliffe was in for 75 minutes and scored 20. The bowling was changed frequently in true, Bardsley utilised the services of seven players, ringing the changes constantly.

The one bright spot in the match was the continued brilliancy of the veteran C. G. Macartney, who made his third successive Test Match century.

The Fifth Test, starts at the Oval on August 14th, and will be played to a conclusion.

Carr is improving, his temperature is almost normal, but his throat is much ulcerated and he cannot play to-day.

## RACING.

## RESULT OF STEWARDS' CUP.

London, July 27.  
At Goodwood the Stewards' Cup resulted:—  
Paraphs So (100/6) ..... 1  
Edwina (50/1) ..... 2  
Purple Shade (100/7) ..... 3  
Twenty-nine ran. Won by one and a half lengths, and half a length.—*Reuter.*

## Yorkshire Lose Points.

In Whysall's benefit match at Nottingham, Notts gained a first innings' advantage over Yorkshire. The scores were:—

Notts, 255 and 155.  
Yorkshire, 245 and 53 for one wicket.

Lilley scored 61 in Notts' first innings and Walker 50 (not out) in the second.

For Yorkshire, Holmes was top scorer with 77. Larwood took four wickets for 54 runs.

## Somerset's Collapse.

Playing at Cardiff, Glamorgan defeated Somerset by an innings and 24 runs. The scores were:—

Somerset 69 and 77.  
Glamorgan, 160.

It was a bowler's wicket. In Somerset's first knock Aragt took five wickets for 23 runs and Mercer five for 27, whereas in the second innings, Mercer took five for 33 runs and Ryan four for 23. In spite of the fact that Turnbull made 57 for Glamorgan, White, the Somerset bowler, had the good average of six wickets for 44 runs.—*Reuter.*

## THE TELEPATHIST.

Above is Professor Max Langner, the noted telepathist, who last night gave an impressive demonstration at the Theatre Royal.

## PROFESSOR'S FEATS.

## "KARA IKI'S" ASTOUNDING PERFORMANCE.

Those who attended the demonstration of telepathy, hypnotism and auto-suggestion by Prof. Max Langner ("Kara Iki") at the Theatre Royal last night were more than rewarded for any inconvenience suffered due to the hot night, or, in the case of Peak residents, difficulty in reaching the theatre, by the astounding experiments performed.

Every available seat was occupied downstairs and there was quite a good gathering in the circle when the Professor began by explaining briefly the meaning of telepathy, although his rather limited knowledge of the English language made it difficult for the audience to follow him in all his points. The demonstrations, however, were most convincing and certainly calculated to dumbfound sceptics.

Five members of the audience were given "paper and envelopes and requested to write the name of an acquaintance present in the building. After being sealed, the Professor proceeded to lead the person who had written the name to the acquaintance whose name had been written down. In four cases the demonstration was completely successful, but the fifth apparently presented difficulties. The gentleman concerned may have been a sceptic, but later on in the evening he was specially selected on this account, and without muscular contact, was influenced to lead Professor Langner to a gentleman in whose coat a pin had been secreted.

One of the most interesting experiments was a "mock murder" in which a committee, presided over by Sir Robert Ho Tung, selected the murderer, and concealed the victim, the weapon with which the "crime" was committed as well as the plunder. During the arrangement of this test, Professor Langner gave himself in charge of another committee who took him outside the Theatre where he remained while the "plot" was completed. Upon being summoned back again, the Professor formed "telepathic communication" which was achieved by Sir Robert grasping his wrist, and quickly proceeded to solve the problem, discovering the "murderer" who had taken his seat again in the audience; the victim, who had been hidden behind the stage, the weapon, and the proceeds of the robbery, which had been placed in the pocket of one of the committee.

The latter part of the programme was devoted to hypnotism and auto-suggestion. Upon being invited on to the stage, about a dozen persons afflicted with stammering responded, and it was the experiments which followed which made the most profound impression upon the audience. The subjects were selected, and, within a few seconds were completely subjected to the Professor's hypnotic spell. Then, to the amazement of spectators, each subject was made to carry on a perfectly normal conversation in which all hesitancy of speech disappeared. When awakened from the spells, a cure certainly appeared to have been effected, although it remains to be seen whether the recovery will be permanent.

No matter how sceptical people may have been, such an art as that demonstrated is quite beyond the explanation of the "man in the street," and the fact that many Peak residents forgot that the last tram left at midnight, is sufficient tribute to the Professor's power to provide a most bewildering and interesting demonstration.

## WONDER DOG.

## ATTRACTIVE FILM AT

## QUEEN'S.

Lovers of dogs will find plenty to delight them, and stir their emotions, when they have seen the gripping film which was shown at the Queen's Theatre for the first time yesterday, entitled "Wild Justice," and in which the wonder dog, Peter the Great, may be said to be a central figure. The scenes are laid in the frozen north, and the story is a most attractive one. In spite of the tense and dramatic scenes which occur between the principal parties, interest really centres on Peter the Great, whose ancestry is a revelation in the acting of animals, and this dog undoubtedly "makes" the picture. There are plenty of thrilling scenes, and delightful touches of humour, provided by the dog, and these make the picture most acceptable.

Included in the programme are contributions by Sam Kai, junr., the "Krisler" of the steel guitar, accompanied by David Kina, a noted Hawaiian baritone, and last night they were loudly applauded. The more recent popular songs are rendered in good style.

There is also showing a particularly funny cartoon, "The Spider and the Fly," also a topical film including news from Home, the arrival of the Japanese training squadron in Hongkong, and excellent scenes of the local flood.

The next change, from Thursday to Saturday, will be "Potash and Perlmutter in Hollywood," which is the latest Samuel Goldwyn comedy and should draw big houses.

An interesting statement has been issued to show how the British and Foreign Bible Society obtained its income last year. Of each sovereign secured, 8s. 6½d. represented sales of the Scriptures, 6s. 9½d. the contributions of Auxiliaries, 2s. 10½d. the help forward of the "dead hand"—in other words, legacies—is 3½d. money paid direct to the Bible House, and 6½d. the dividends on investments. Especially noticeable is the splendid percentage obtained from legacies.

ON "TIMETABLE"  
 SCHEDULE

Dollar "President" liners are the first in history to maintain "timetable" schedules for worldwide ocean traffic, comparable to railway schedules ashore. This dependable service enables you to perfect definite travel plans, to count surely on making air and steamship connections.

Dollar liners intrude Pacific service over two sailings each month, reaching San Francisco via Shanghai, Kobe, Yokohama and Honolulu. Dollar liners afford four sailings each month to Manila; thence to Singapore and beyond, round the world, on fortnightly schedule.

All outside-staterooms are big factors in Dollar Line popularity. Suites de luxe are such as you would expect on ships that maintain the famous Dollar Line cuisine. Decks and social halls are spacious. You will enjoy travel on these clean, efficient liners.

Hongkong, July 27, 1926.

AMERICAN FLOUR.

BELGIAN ECONOMY

"CAMPAIGN."

Brussels, July 27.

The national diet of war bread, as to which the King and Queen are setting a rigorous example, is decreed by the Government as one of the items in the economy campaign, the idea being to reduce the number of dollars paid for American white flour.—Reuter.

CAPTURED BY

BANDITS.

AN AMERICAN CATHOLIC

PRIEST'S MISCHANCE.

Peking, July 27.

A delayed telegram from the American Consul at Changsha, dated July 22, briefly records that an American Catholic priest was captured by bandits in West Hunan on July 15, and action has been taken to secure his release.

No details are given.—Reuter.

COMPANY RESULT.

P. AND O. BANKING

CORPORATION.

Dividend of 5 per cent. for the year ended March 31 (the same as for 1924-25), after placing £20,000 to reserve (against £25,000), writing £5,000 off premises account (the same), leaving £19,042 to be carried forward (against £17,584).

A stable exchange and a good credit are two of the greatest services which a Government can render to industry.—Chancellor of the Exchequer.

Victoria, Hongkong.

#### BRITISH AERIAL ENTERPRISES.

This picture shows the Air Ministry's first "windmill" airplane. The machine has been designed by the Spanish inventor, Senor de Ciervo. During a trial flight it was proved that the machine had the ability to make a descent that is almost vertical.

This is the scene at Lee-on-Solent at the end of the R.A.F. air epic, these machines having flown from Cairo to the Cape and back—a distance of 14,000 miles.
